Tecnologia, estetica ed elevate prestazioni: FIMA Carlo Frattini propone da oltre 50 anni rubinetteria di altissima qualità destinata a durare nel tempo e capace di dare valore aggiunto ad ogni progetto. L'Azienda ha assunto negli anni un taglio innovativo ed in continua evoluzione, grazie alla creatività, al design e alle nuove tecnologie, che differenziano le sue collezioni. FIMA, infatti, si rinnova costantemente, come dimostrano l'alto livello progettuale e qualitativo della produzione, i continui investimenti in ricerca, la forte espansione nazionale e internazionale, la professionalità del team aziendale. Questo atteggiamento ha portato l'Azienda ad interpretare e anticipare le esigenze contemporanee e future del mercato, proponendo prodotti all'avanguardia per design e tecnologia, curati singolarmente in ogni dettaglio.

Technology, aesthetics and performance: FIMA Carlo Frattini has been offering for more than 50 years high quality faucets designed to last over time and able to give added value to each project. Over these years the Company has taken an innovative and evolving feature, thanks to its creativity, design and new technologies, which differentiate its collections from others. FIMA, in fact, is being continually upgraded by way of its high level of designs, quality of production, continuous investment in research, the strong national and international expansion and the professionalism of the corporate team. This attitude has led the company to understand and anticipate the contemporary and future market needs by offering technically and esthetically advanced products, which are treated individually in every detail.

FABBRICAZIONE

# #GREEN

FIMA CARLO FRATTINI da anni evolve i propri processi produttivi finalizzandoli ad una costante riduzione di risorse, materiali ed energia ed operando un controllo costante sulle materie prime, sui consumi e sull'impatto ambientale di tutte le fasi di produzione e commercializzazione dei propri prodotti.

Un'azienda eco sostenibile, alimentata da energia auto-prodotta e in grado di realizzare prodotti sicuri per la salute e per l'ambiente con un basso impatto ambientale.

FIMA CARLO FRATTINI for many years has been constantly developing its production processes in order to reduce the use of resources, materials and energy. Furthermore all FIMA Carlo Frattini projects are developed considering all the steps of a product's life, from its manufacturing to the shipment till its dismantlement.

An environmentally friendly company, powered by self-produced electricity and able to produce products safe for human health and the environment with a very low environmental impact.

# #QUALITY

I migliori materiali e tecnologie all'avanguardia per garantire un utilizzo quotidiano impassibile al trascorrere del tempo. Fima Carlo Frattini sposa un approccio globale alla qualità che deriva da un'attenzione all'innovazione tecnologica, adottando processi industriali all'avanguardia, scegliendo le migliori materie prime. Tutti i prodotti vengono sottoposti a minuziosi e severi controlli in ogni fase di lavorazione e sono progettati in modo da rispettare tutte le più rigide normative internazionali. Ulteriore testimonianza di questa filosofia improntata alla qualità totale è la garanzia che si estende per ben 7 anni su tutta la produzione.

Best materials and cutting-edge technologies as a guarantee for an everyday use unchanging over time. FIMA Carlo Frattini follows a global approach to quality coming from a particular attention to technology innovation, by adopting cutting-edge industrial processes, choosing the best raw materials. Detailed strict controls are carried out on all the products in every production phase and all the items are designed in order to respect the most stringent international regulations. Its seven-year extended warranty on all the product is a further evidence of this philosophy based on total quality.

# #DESIGN

Prodotti unici nel loro genere, studiati per massimizzare il comfort di utilizzo e con un inconfondibile tocco Made in Italy. Convinta del potere della creatività, del design e delle nuove tecnologie, l'Azienda ha assunto negli anni un taglio innovativo e in continua evoluzione. Questo atteggiamento l'ha portata a interpretare e anticipare le esigenze presenti e future del mercato, proponendo prodotti all'avanguardia per design e tecnologia. Studiati per massimizzare il comfort di utilizzo e caratterizzati da uno stile unico sono progettati da nomi noti del design.

One-of-a-kind products, designed to maximize the comfort in use with an unmistakable hint of Made in Italy. The Company, firmly confident of the power of creativity, design, and new technologies, has developed over the years innovative and ever-changing traits. This approach has led it to interpret and anticipate the current and future market needs, by proposing state-of-the-art products in terms of design and technology. Designed to maximize the comfort in use and characterised by a unique style, all the items are designed by well-known designers.
